

Parent's feedback

Dear Sam

Our little daughter, Jasmine, 15 months old, attended TKO centre for 2.5 months. She currently attends English, Spanish and Putonghua. Last night, she gave us a little surprise. She could say one to four in Putonghua by herself and with our guidance, she could even say up to ten. We don't speak Putonghua at home. It's quite obvious that this little surprise was the efforts made by the Putonghua teacher! As my maid brought her to the Putonghua lesson every Thursday, and she didn't know the teacher's name (Jarian), please kindly help me pass a thank-you-message to the teacher.

Also, Jasmine could also say a little bit of Spanish as well, e.g. Halo, mui bien, uno and dos. I always hear from my maid that Jasmine enjoys a lot in Spanish and Putonghua lessons. Martha and the Putonghua teacher did a very good job! They are patient to toddlers and could guide them very well.

Thank you, they gave Jasmine lots of happy moments.

Regards

C
